

BILL MITCHELL BIOGRAPHY

Bill Mitchell grew up in San Diego, California back when California was conservative. In 2003 Bill, his wife Cherie and their 5 children moved to Arizona where they raised their family. Bill has spent much of his adult life working with high-risk youth and their families that had become involved with the Juvenile Justice System. He holds advanced degrees in Counseling Psychology and Educational Psychology and has worked alongside Law Enforcement, Probation and the Courts in the Juvenile Justice system in California, Arizona, and New Mexico.

Bill became politically active during the 2016 Donald Trump election and presidency and since that time is responsible for the founding of two grassroots patriot groups one in Arizona (Havasu Patriots) and the other in Florida (Foundation for Freedom Conference). These grassroots groups of individuals are committed to Constitutional Compliance and integrity within our Executive, Judicial and Legislative branches of government to ensure our Sovereignty, Election Integrity, Healthcare Freedom, and Autonomy from foreign influence regarding our God given rights. They work alongside other grassroots groups, state representatives and senators to craft election integrity legislation to address the compromises in our election integrity. In 2020, Bill authored what came to be known as Resolution 1776, which called on the Mohave County Board of Supervisors to declare Mohave County the first Sanctuary County in Arizona for the Constitution. This expressed the County Board of Supervisor's resolve to interpose between the unconstitutional executive orders, mandates and proclamations and therefore upholding, We the Peoples God given rights, during the Covid crisis.

In 2022, Bill and his wife Cherie retired to Flagler Beach, Florida where he established the Foundation for Freedom Conference. After partnering with several other grassroots groups here in Florida Bill merged the Foundation for Freedom Conference with the Constitutional Sheriffs and Peace Officers Association. Bill became the CSPOA Florida State Director in 2024 and is helping to spread the CSPOA message that Constitutional Sheriffs working in conjunction with their County Elected Officials and We the People is how we will be able to enforce the Constitution and restore the rule of law.

Florida has the chance to be the model for what a Constitutional County and State could look like. In Florida 5 Counties already have declared themselves Constitutional Sanctuaries, 44 are Sanctuaries for the 2nd Amendment, and 47 Counties Sheriffs have signed on the 287g Memorandum of Agreements with ICE to arrest, detain and deport illegal aliens. We clearly have a great start towards having the State of Florida becoming the first state to declare itself a sanctuary for the constitution, which is Bill's goal prior to the 2026 election. In his presentation, Bill outlines his plan of how to work at a grassroots level and work from the bottom up to retake our state and nation one county at a time.
